SEPTEMBER 2004 VOLUME ONE

Divine Guidance

Essential Combination Formula From Fleuressences

Perhaps the most important essence to start off with in your exploration of the healing qualities of flower essences is the **Divine Guidance Combination Formula**. Energetically this formula can be likened to bushwhacking a path through the jungle. At first the going is rough, but after a few times over the path, the going gets easier and easier. This is similar to the way our divine guidance works with us.

On etheric levels of our energy field, we have a “hearing band” that has become scarred over many lifetimes with negative imprints. So instead of hearing guidance sourced from Creator, we are apt to hear static frequencies that are the voices of ego, parents, society or others that make us feel confused about messages that we are trying to receive from divine guidance.

Divine Guidance Combination Formula contains 14 flower essences that clear our “hearing band” scars and in about 3 weeks you will notice that you are more easily hearing the voice of divine guidance through all the other static. What a profound gift the flowers hold for us! . § Cost: \$18.00 for ½ oz

Brand New From Fleuressences

Orchid Essences From Scotland

Available soon, 55 **Orchid** essences from Scotland for making **Orchid Personal Formulas** and advanced **Combination Formulas**. Orchids are the most evolved of all the flowers and they offer major keys to our continued evolution. Please call for more information.

7 Keys To Magnificence

New Spray From Galactic Grace Essences

The new **Seven Keys to Magnificence Aura Spray** that was divinely guided as part of the **Galactic Grace Essence** line is truly unique. The spiritual realm has outdone themselves again with the most advanced formula we have been guided to make as of this date. The truly magical aspect of this essence spray is its fragrance. Imagine **rose, amber, sandalwood, carnation, neroli, patchouli** and **jasmine** together!!! The alchemy feels like gold or royalty or magnificence!!!! This is an out-of this world scent.

For the first time we are using “synergistic” flower essences. This means that the electromagnetic imprint and the fragrance of the flowers or other substances has combined so that the oil and water aspects of the essences and fragrance have been emulsified to make them better integrated as a water vapor for the atmosphere around our auric fields.

Each of the flowers offers a “key” to our magnificence. **Carnation** offers miracle or revelation and is communicated as love. **Sandalwood** offers spectrum or color and is communicated as sacredness.

Pure Joy Aura and Surrounding Spray

New Spray From Galactic Grace Essences

This is a wonderfully uplifting combination spray formula that really helps to bring into our auric field and surroundings the attunement or resonance of joy. The fragrance for this formula is a variety of different species of **Orange** blossoms.

The essence of imprint of the flowers and their fragrances are brought together in “synergy.” Synergetic flower essences means that the fragrance oils and the electromagnetic imprint of the flower are combined, so we get multilevel healing effects for different levels of frequency in our energy field.

Orange flower essence is for our emotions and is perhaps one of the finest at calming our emotions and uplifting our spirits. **Ice Plant** brings in the highest state of bliss available on the earth plane via a flower. It is like drinking carbonated joy. **Zinnia** offers a vibration of exuberant, enduring and sturdy joy. **Red Rugosa** **Rose** dispels anything in the atmosphere that seeks to disturb us from joy. **Mustard** excels at lifting us out of depression, especially those that have been chronic.

Watermelon Tourmaline is a semi-precious gem that brings higher joy from other dimensions and helps us to create distance from our self dramas. **Garnet/Silver** is a combination gem added for stimulating new realities of existence and health. \$30.00 for 4oz. §

GOD’S GARDEN

The Garden is rich with diversity,
With plants of a hundred families
In the space between the trees
With all the colors and fragrances.

Basil, mint and lavender, God keep my remembrance pure,
Raspberry, Apple, Rose, God fill my heart with love,
Dill, anise, tansy, Holy winds blow in me.
Rhododendron, zinnia, May my prayer be beautiful
May my remembrance O God, Be as incense to thee
In the sacred grove of eternity, As I smell and remember
The ancient forests of earth.

By Chinook Psalter

Amber offers the key of crystal or structure and is communicated as essential organization. **Rose** offers elements or chemistry and is communicated through divination. **Neroli** offers enzymes or nature and is communicated as synergisms. **Patchouli** offers sensors or guidance and is communicated as predestination and **Jasmine** offers eternity and is communicated as sustenance.

If this isn’t enough for you, the spiritual realm also asked me to include the vibrations of the **76 Sacred Names** listed in the **Book of Enoch**. The sounds from this archangelic alphabet coordinate the elements of life with God’s Name. Each divine letter generates resonance patterns of Light which can be communicated through universes of consciousness through the mathematical harmony of the letters.

When you order the **Seven Keys to Magnificence Aura Spray** you will receive a list of the **76 Sacred Names** and a diagram of the human auric field with the activation points. This aura spray is \$35.00 for 4 oz. § (I wish to thank Carol Kronwitter for her co-creative efforts in the development of this aura spray.)

PERSONAL EXPERIENCES WITH FLEURESSENCES

These formulas are so sacred; I didn’t even have words to describe them. Lisa Askari, Plover Wisconsin

Tears came to my eyes as I opened up the packages of flower essences from your company and I know it was because my soul needed them so much. Karen DeSmet

Back to Basics

RED SCHISO

Flower essences from **Fleuressences** and **Galactic Grace Essences** are preserved in a liquid medium called Red Schiso. This pink liquid is made up much like a tea would be. The maroon-bronze colored leaves are infused in purified water that has been boiled and then strained through a filter.

The resulting liquid has a wondrous, crystal-like quality which makes any container that it has been in feel consecrated and purified. The taste of Red Schiso is slightly sour like vinegar.

Red Schiso's high vibration makes it very compatible with the deva energies that are being held in the bottle. In fact the devas are dancing and happy when you open up a bottle of essences and it is their complete joy to bring their healing energies into your healing experience. §

HOW TO TAKE YOUR ESSENCES

Dosage amounts for your flower essences are always included with your order. They are given as a number of drops taken either once or twice daily.

They can be taken by dropper on the tongue, or the drops can be put into a glass of water. Alternately, drops can be put in a water bottle and sipped throughout the day.

My friend Rose works at a computer all day and knows that the electromagnetic energies around her computer compromise her energetic life force. She takes 20 drops of **Protection Combination Formula** and puts them in her water bottle and drinks from that all day.

Rose no longer suffers from the depletion symptoms she used to feel. At some point she should be holding enough "charge" or "wattage" in her energy field so that she will no longer have to take flower essences. §

Morning Glory

Flower of the month

The Morning Glories are in full bloom at my house right now! Their precious essences are found in our **Self Worth Combination Formula** and in the **Blessed Creativity Combination Formula**. Morning Glory helps us to relish every moment of our time on earth.

We are told that many, many souls wish to incarnate here on earth and only a few are chosen.

Even if we think we have a mundane life, Morning Glory helps us to see the true beauty and exquisite nature of a life on the earth plane. This flower helps us to glorify the divine game of hide and seek that we play with our Creator.

*The **Garden** is rich with diversity...with plants of a hundred families.*

The blue color of Morning Glory reminds us of our throat chakra vibration. As the flower is coming into bloom each morning, it looks like a throat opening to drink in the beauty of our life. As the flower continues to open, a subtle star configuration is revealed, reminding us that each of us is a star, and helps us to express our true self as completely as we can at our point in the universe. §
